Ursula Zednicek, Bonn / D & Molivos / GR – **LESVOS pur(e)** & **TANZBEGEGNUNG**

Born 1956; lead / organisation of seminars incl. trips since 1986,  
Languages: German, English, Greek (beginner „ziga ziga“), Dutch (basics)

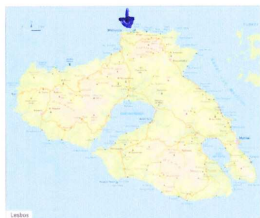

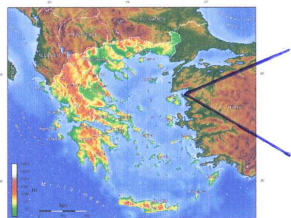

I am very enthusiastic about the island and I go there several times a year since 2006 – and I like it especially outside the season, when the contact to the people and to the nature is much easier and definitely more intensive – and slightly different. Then I feel like being with friends and, being with a small group of people, also the locals have a better chance to share their lifestyle, their traditions and daily life and - above all – their famous hospitality and heartiness.

In 2010, the idea of these outstanding trips occurred (Greece „pure“ so to speak) and with it the island website [www.lesvos-pur.net](http://www.lesvos-pur.net) (German = .de) with program modules all around the year offered and run by the locals.

Feel free to use the offers on the website – they are not necessarily linked to a trip with me.

**But:** my enthusiasm for the island, my trip experiences and my excellent contacts to the locals (Vangelis, Lesvorama: *„We hope, that you feel like a local with us, because that's exactly how we see you!“*) are a good attendance, open doors and allow an outstanding intensity.

The Island

Lesvos / Mythelini, a green island, off the coast of Asia Minor, fascinates with its diversified landscape, hot springs, wonderful museums, legends and myths and by its hospitable people.

Molivos / Mithimna with the well preserved medieval cityscape is located in the north of the island. Largely untroubled by mass tourism, the island presents mainly to individual tourists and small groups beautiful landscapes, interesting objects of cultural value and natural Greek hospitality.
